#### **SUGGESTION:**

*This is Live Theatre created for your child. You can help making the most of this experience by keeping distractions to a minimum. The show should be indoors, against a wall with an open space for the children to sit on the floor. The fewer obstacles between them and the show; the better reaction. Not recommend giving the children foods or drinks during the show, or their enthusiasm and your carpet will suffer. Noise can be a distraction too, background conversations better take place in another room. Besides, **This is a Great Opportunity for Parents to experience some magical wonderful memories with their children.***

*Over 10-yr Experience in Entertaining  
Magic performance*

Magically yours, Andy Ko!
